

# TEMPLO *Lite*

for the running specialist

**“video proof every shoe sale in less than 30 seconds!”**

**Only £899.00**  
(ex VAT)

▼ a 3-in-1 video gait analysis program that's fast and easy to use!

### spot check

Video proof all running shoes sales with this no fuss click 'n' look program. By simply clicking the 'record' then 'stop' button - the video will automatically load ready to analyse - no fuss.

### multi view

Video proof up to 4 pairs of running shoes together. It utilises the same click 'n' look programming that's featured in the Spot Check protocol. Multi view is a fast way to show your customers which shoe is best.

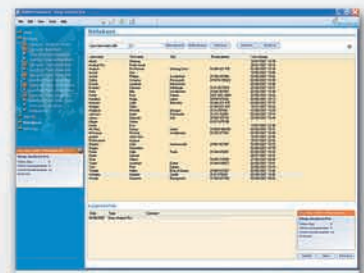

### analysis pro

For retailers with trained or qualified staff who wish to evaluate the barefoot and original shoe before making any recommendation. With an easy to follow menu, overlay functions, tools, video editing etc the Analysis Pro model sets the benchmark.

### instant reports!

#### your logo here

Create branded reports instantly - either print or email. It doesn't matter what you are doing just simply click the 'instant report' button (you can be in any view - 1, 2, 3, 4 or 6) and they will automatically present themselves. Type or 'cut and paste' copy into the text boxes.

### database

You can quickly record and analyse your client without needing to create a database entry. Saving their details later is easy. You can manage, retrieve and delete files with ease - even years later!

### simple screen & video clip selection

TEMPLO Lite has a unique comparison tool - simply choose the video clips you want to analyse (from your customers personal image pallet) and they will be automatically presented in the correct number of views - all synchronised!
